

ClassifyIt - Simple, Visible, Compliant

ClassifyIt is a lightweight classification tool for Outlook, Word, Excel, and PowerPoint. It helps organizations comply with ISO 27001, GDPR, and CUI by classifying documents and emails – visibly and machine-readably.

Key Features

- Works across Outlook, Word, Excel, PowerPoint
- Embeds JSON/X-Headers for integration with DLP, mail gateways, and archiving systems
- Lightweight deployment, no complex infrastructure
- On-Premise, Hybrid, and Cloud ready

Why ClassifyIt?

ClassifyIt provides visible security markings and technical labels to documents and emails, ensuring compliance with regulations such as ISO 27001, GDPR, and governmental standards. It supports simple classification schemes (Public, Internal, Confidential) and complex governmental frameworks (EU, NATO, TLP).

Additional Components

CryptIt – encryption of files and attachments (automatic or certificate-based).

ClassifyIt Shell – Windows Explorer extension for classifying files and showing visual classification info.

Get Started

Try the free version supporting TLP classification. Commercial licenses start at just €10 per user. We offer transition support if you are migrating from another tool – don't pay twice for the same function!
